«Ýaş diplomatyň sesi».

CENTRAL ASIA – OSCE: NEW PHASE OF COORPERATION

During the Revival of the new era of stable state, neutral Turkmenistan under the our esteemed President continuously implements a creative foreign policy strategy based on the principles of peace-loving, good neighborliness, effective cooperation at the regional and global levels.

Turkmenistan's cooperation with other international organizations, including the Organization for Security and Cooperation in Europe, is being actively developed. During the meetings of our esteemed and the National Leader of the Turkmen people our Hero Arkadag on June 1, 2023, with the Secretary General of the OSCE Helga Shmid, the issues of further development of effective cooperation in the interests of global peace and well-being were discussed.

In this regard, the awarding of the certificate to the city of Arkadag for its participation in the project «Development of sustainable, green, climate-friendly cities with innovative solutions in the region of the Organization for Security and Cooperation in Europe» is an important event. This is a clear proof of the good relations between Turkmenistan and the OSCE in such an important area as ecology.

On October 31 meeting of the Secretary General of the Organization for Security and Cooperation in Europe and the heads Foreign Ministries of the Central Asian states was held in the the Ministry of Foreign Affairs of Turkmenistan. During which a thorough exchange of views took place on the most important topics of regional security, sustainable development and stability. Particular attention of the participants was paid to border security, climate change and ecology, as well as transport links.

The Turkmen side emphasized that environmental safety remains a priority area of international cooperation of our state, first of all, this concerns project activities on rational environmental management and sustainable management of water resources. In this regard, Ministry of Foreign Affairs of Turkmenistan noted the importance of the practical implementation of the proposal of the Turkmen side to develop a draft OSCE Comprehensive Environmental Program. Turkmenistan also advocates promoting the initiative of the OSCE Secretary General to hold regular meetings with the ministers for environmental protection of Central Asian countries. As is known, the first such meeting within the framework of the Climate Conference in July of this year showed that this format is timely and in demand. In this regard, the Turkmen side expressed its readiness to host the next meeting of this format in 2024 in Turkmenistan.

This is clear proof of the growing coorpetarion between Turkmenistan and the Organization for Security and Coorperation in Europe.

Aylar ATAJYKOVA,
the 4th year student of the
Faculty of International Journalism.

As the National Leader of Turkmen people, our hero Arkadag mentions peace is the greatest value in the world. Turkmen nation is committed to the principles of peace and humanity in all periods of human history. Today, our country under the leadership of our Hero Arkadagly Serdar is widely known in the world for its humanitarian foreign policy. Our honorable President has high reputation for the great works he is implementing for well-being of not only Turkmen nation but also people around the world.

TURKMENISTAN – ECONOMIC COOPERATION ORGANIZATION:

ON THE WAY OF DEVELOPMENT

D*evelopment* of mutually beneficial cooperation with international organizations and world countries under the leadership of the President is one of the priorities of foreign policy strategy of our country. Turkmenistan is doing great work in achieving goals in the field of global and regional security, sustainable development, and well-being.

By the way, in 1992, Afghanistan, Turkmenistan, the Republic of Azerbaijan, the Republic of Kazakhstan, the Republic of Kyrgyzstan and the Republic of Tajikistan were admitted to the Economic Cooperation Organization founded by Iran, Pakistan and the Republic of Turkey in 1985. The main goals and directions of this organization are to promote the economic, technical and cultural cooperation of the member states, to achieve their consistent integration into the world economy, to increase the region's position in world trade, and to ensure the general well-being. If we have a look at the history of the ECO over the past 31 years, Turkmenistan has implemented several interregional projects within the framework of the organization.

The current framework of the ECO expresses itself mostly in the form of bilateral agreements and arbitration mechanisms between individual and fully sovereign member states. That makes the ECO similar to ASEAN in that it is an organization that has its own offices and bureaucracy for implementation of trade amongst sovereign member states. This consists of the historically integrated agricultural region of the Ferghana Valley which allows for trade and common agricultural production in the border region between Kyrgyzstan, Tajikistan and Uzbekistan. Pakistan has free trade agreements with both Afghanistan and Iran which are in the process of implementation.

In 2017, a free trade agreement between Turkey and Iran was proposed to be signed in the future, in addition to a proposed Pakistan-Turkey Free Trade Agreement. The Afghanistan-Pakistan Transit Trade Agreement is designed to facilitate trade for goods and services for Central Asia via both Afghanistan and Pakistan. That is in addition to the Ashgabat agreement, which is a multi-modal transport agreement between the Central Asian states. Further cooperation amongst members is planned in the form of the Iran – Pakistan gas pipeline, as well as a Turkmenistan – Afghanistan – Pakistan pipeline. Current pipelines include the Tabriz – Ankara pipeline in addition to the planned Persian Pipeline. This is in addition to the transportation of oil and gas from Central Asian states such as Kazakhstan and Turkmenistan to supply the industrialization underway in Iran, Pakistan, Turkey, and beyond. Pakistan plans to diversify its source of oil and gas supplies towards the Central Asian states including petroleum import contracts with Azerbaijan.

The agenda of the 16th Summit of Heads of States of the ECO, which will be held on November 8-9, 2023 in Tashkent, the capital of the Republic of Uzbekistan, will reflect the promising directions of using the geopolitical and geo-economic opportunities Organization for the benefit of the member states and the entire world community. Our country considers cooperation with the Economic Cooperation Organization as one of the positive conditions for regional development. Under the leadership of our President, our country successfully implements bilateral and multilateral relations with the member states of the Economic Cooperation Organization.

Our country takes an active role in the development of harmonious solutions to the serious issues of our time, and promotes constant initiatives in order to ensure peace and security, develop effective economic and humanitarian relations. This is clearly evidenced by the adoption of the Resolution "Cooperation between the United Nations and the Economic Cooperation Organization" by the UN member states at the 75th session of the United Nations General Assembly held on September 9, 2021 at the proposal of Turkmenistan. At the high-level meeting, our Hero Arkadag emphasized that international cooperation and infrastructure creation initiatives for safe and stable transit of energy resources are internationally recognized as an important condition for ensuring international cooperation and sustainable development.

Today, the main task of the ECO is to ensure sustainable development in the region through economic resources, to create opportunities for effective cooperation for the sake of peace and prosperity.

On November 28, 2021, under the leadership of our country, the 15th summit of leaders of the member states of the ECO was held in Ashgabat. This summit was attended by the Heads of States and Governments of the member countries of the organization. During the summit, priority areas of cooperation promoted by our country within the framework of the Chairmanship of the Organization were described. In his speech at the summit, the National Leader of Turkmen people, Hero Arkadag focused on energy issues and emphasized the importance of the development of the transport and communication system.

May the National Leader of Turkmen people, our Hero Arkadag and the President of Turkmenistan Hero Arkadagly Serdar who are making tireless efforts to raise the international reputation of the country, live long. May their hard work always be blessed!

Meylis NEPESOV,
the lecturer of Institute of International Relations of Ministry of Foreign Affairs of Turkmenistan.

Ykdysady Hyzmatdaşlyk Guramasynyň 15-nji sammitiniň 2021-nji ýylyň 28-nji noýabrynda YHG-niň gününde Aşgabatda guralandygyny bellemek gerek. Onuň netijesinde jemleýji resminama – Hereketleriň Aşgabat Ylalaşygy kabul edildi.

CHAIRMAN OF THE HALK MASLAHATY OF TURKMENISTAN TOOK PART IN THE OTG SUMMIT

On November 3, 2023, as part of a working visit to the Republic of Kazakhstan, the National Leader of the Turkmen people, Chairman of the Halk Maslahaty of Turkmenistan Gurbanguly Berdimuhamedov took part in the 10th Summit of the Organization of Turkic States (OTG), held in Astana.

The head of the Halk Maslahaty announced at the OTG summit the vision of Ashgabat for further expansion of mutually beneficial cooperation in the space of the Organization of Turkic States.

The summit, which was chaired by President of Kazakhstan Kassym-Jomart Tokayev, was also attended by President of Uzbekistan Shavkat Mirziyoyev, President of Azerbaijan Ilham Aliyev, President of the Kyrgyz Republic Sadyr Zhaparov, President of Turkey Recep Tayyip Erdogan, Prime Minister of Hungary Viktor Orban, Secretary General of OTG Kubanychbek Omuraliev.

The summit, held under the motto “Turkic Era” or "TURKTIME!", became an important platform for discussion at the highest level of current issues on the Organization’s agenda. A document entitled "Prospects of the Turkic world – 2040" was approved at the summit. Its main goal is to promote peace and stability in the region, deepening cooperation between Turkic-speaking countries connected by a common historical and cultural heritage.

Speaking to the participants of the Summit, the National Leader of the Turkmen people expressed confidence that the current Summit will contribute to the further development of political-diplomatic, trade-economic, cultural-humanitarian ties between our countries and the identification of new tasks for the future in these areas.

Chairman of the Halk Maslahaty of Turkmenistan Gurbanguly Berdimuhamedov proposed to adopt a Cooperation Program among the countries of the Organization for 2024-2025 for systematic interaction within the framework of international organizations.

With regard to the trade and economic vector, it was noted that Turkmenistan considers it expedient to intensify contacts within the framework of the OTS. At the same time, transport, energy, trade, production cooperation and other sectors were named among the areas uniting our states.

An important place in interstate relations is given to transport and logistics, the National Leader of the Turkmen people continued, drawing the attention of the Summit participants that in the current climate of general instability, one of the key tasks is the creation of modern transport, transit and logistics systems connecting our states and widely ramified beyond their borders.

Energy was identified as another important area. As emphasized, having rich oil and gas fields, Turkmenistan pursues a policy of reliable and safe export of energy resources to the world market. In particular, Turkmen natural gas and electricity are supplied to neighboring countries and states in the region.

In this direction, close cooperation has been established with the countries that are members of the Organization of Turkic States, stated Chairman of the Halk Maslahaty Gurbanguly Berdimuhamedov, noting that Turkmenistan currently sends natural gas to neighboring Uzbekistan and Azerbaijan.

Speaking about the potential for transporting Turkmen natural gas through the Caspian Sea to Azerbaijan, Republic of Türkiye, and in the future bringing it to world markets, the National Leader of the Turkmen people expressed confidence that in the very near future all necessary issues will be jointly resolved and relevant work will be carried out.

In November 2021, Turkmenistan joined the OTG as an observer. Currently, work is underway on the accession of the Turkmen side to the Union of Chambers of Commerce and Industry of the Turkic States.

Gulshirin KADYROVA,
the 2nd year student of the Faculty of International Relations.

Новости дипломатических представительств Туркменистана за рубежом

3 ноября посол Туркменистана в Бельгии Сапар Пальванов вручил аккредитационные карточки руководству журнала Diplomatic World – его президенту и основателю Барбаре Дитрих и проектному руководителю Альберто Туркстра. Аккредитационные карточки официально признают их корреспондентами иностранных СМИ, аккредитованными при Министерстве иностранных дел Туркменистана.

Этот жест знаменует собой значимую веху в сотрудничестве между Туркменистаном и престижным изданием, подчеркивая приверженность страны взаимодействию с международными средствами массовой информации, способствуя более активному обмену информацией и мнениями.

4 ноября посол Туркменистана в Королевстве Саудовская Аравия Оразмухаммед Чарыев встретился с генеральным секретарём Совета сотрудничества арабских государств Залива (ССАГЗ) Джасемом Мохаммедом Албудаиви.

Как сообщила пресс-служба туркменского внешнеполитического ведомства, в ходе встречи стороны констатировали значение состоявшегося в июле 2023 года в Джидде Саммита ССАГЗ и стран Центральной Азии.

В этой связи, стороны обсудили пути реализации предложений, выдвинутых Президентом Туркменистана Сердаром Бердымухамедовым во время Саммита.

6 ноября посол Туркменистана в Бельгии и глава представительства при Европейском Союзе Сапар Пальванов провел в Брюсселе, встречу с Дэвидом Макалистером, председателем Комитета по иностранным делам Европейского парламента и видным деятелем фракции Европейской народной партии.

В ходе встречи посол подчеркнул важную роль межпарламентского диалога в укреплении более тесных связей между Туркменистаном и Европейским союзом. Дискуссия была сосредоточена на роли такого диалога как средства укрепления партнерских отношений по всему спектру интересов, включая политическое взаимодействие, экономическое развитие и культурный обмен.

6 ноября посол Туркменистана в Грузии Довлетмырат Сейитмаммедов обсудил с председателем Парламента Грузии Шалва Папуашвили его предстоящий визит в Туркменистан, сообщает сайт туркменского МИД.

Во время встречи особое внимание было уделено вопросам сотрудничества между законодательными органами двух государств, которое является важной частью развития туркмено-грузинских отношений.

Также обсуждались перспективные направления взаимодействия в торгово-экономической, транспортно-коммуникационной, энергетической и культурно-гуманитарной сферах.
