## DIPLOMACY IS THE ART OF BUILDING AND FOSTERING THE RELATIONS BETWEEN NATIONS

Independent Turkmenistan, having consistently pursued and successfully implemented its policy of Permanent Positive Neutrality, continues to flourish and develop. Our country is actively fostering friendly, benevolent, and mutually beneficial relations with foreign countries, owing to our National Leader Hero Arkadag and under the distinguished Leadership of our Esteemed President Arkadagly Hero Serdar, this strategy strengthens and expands both Intergovernmental and International cooperation. In this regard, the representatives of Diplomatic service of our country play a vital and significant role in fulfilling the noble tasks arising from the wise and far-sighted foreign policy principles established by the Head of our State.

The Diplomats of our country act in concordance with the foreign policy strategy of Turkmenistan representing the prestige and fundamental interests of our nation in collaboration with other countries. They make a significant contribution to strengthen position of our country in the international arena through their high level of professionalism, integrity, and dedication.

A detailed and comprehensive review of professional activities of our national diplomatic service represent the full consistency with the universal values underlying the UN Charter. Their work is guided by the legal status of Neutrality of Turkmenistan, rooted in the ancient humanitarian traditions and the wise philosophy of the Turkmen people. This unique policy of Neutrality allows Turkmenistan to play a positive and indispensable role in international relations.

It is essential to draw attention to the specific and multifaceted features of diplomacy itself by discussing the work of the diplomatic service. Diplomacy is the sophisticated art of establishing and developing relations between countries and peoples, effectively building bridges between different nations, cultures, and societies. Turkmenistan consistently demonstrates its unwavering commitment to these principles through its policy of permanent neutrality and its active participation in international peacebuilding initiatives.

Year after year, Turkmenistan plays an increasingly active

role in promoting peacebuilding initiatives at the international level, grounded in the principles of positive neutrality. These achievements are built upon the professionalism and expertise of high-ranking Turkmen diplomats. A vivid and historic example of this is the resolution "2025 – International Year of Peace and Trust," adopted at the 78th session of the UN General Assembly in 2024. This initiative, proposed by Turkmenistan, aims to strengthen peace and trust in international relations. It serves as a clear evidence of the global appreciation of Turkmenistan contribution to facing the critical challenges of the modern time and as an efficient partner of the United Nations, and its Foreign policy dedicated to ensuring global peace and prosperity.

Their role in resolving, expanding international cooperation, and achieving immense progress is absolutely crucial.

Turkmenistan is performed as strengthened position of a reliable and authoritative member of the global community owing to the skillful work of Turkmen diplomats. This work has successfully demonstrated our country's friendly relations with both regional and international partners.

The Initiatives of Turkmenistan regarding Sustainable transportation, Combating climate change, Preventive diplomacy and the International Year of Peace and Trust have been recognized by United Nations Organization with great enthusiasm. These initiatives demonstrate the significant contributions of Turkmenistan with a strong commitment to overcome obstacles in international relations and promote prosperity and well-being all over the world.

It is worth of mentioning the visit of António Guterres the UN Secretary-General to our country in the summer 2024, as the result of great work of Turkmen Diplomacy visited. During this visit, He met with the Diplomacy Faculty students higher educational Institutions of our country, at the UN Regional Centre

This is another evidence that our country is successfully nurturing the personnel for the Diplomatic service by combining National heritage and principles with modern, advanced international methods.

While on the subject of nurturing the sufficient Diplomatic service personnel, it is necessary to emphasize that the Institute of International Relations of the Ministry of Foreign Affairs of Turkmenistan provides the great work on fostering highly qualified specialists in the diplomacy capable of representing our country's interests abroad in accordance with the highest international standards. There is the specialized training center "Diplomatic Protocol". The Diplomatic protocol is a sophisticated set of rules, customs, and conditions observed by governments, foreign affairs agencies, diplomatic missions, and officials in international relations. These protocol rules are based on the principle of "international comity." Therefore, it is essential to continuously improve the system of training, the Alma Mater of Turkmen Diplomacy significantly enhances the research and intellectual potential in preparing highly qualified Turkmen diplomats.

## A GUARANTEE OF PEACE: THE MODERN FACE OF TURKMEN FOREIGN POLICY

The initiatives of Turkmen diplomacy, which are focused on strengthening friendship, good-neighborliness, and mutual trust within both regional and international frameworks, carry immense significance on the global stage. Guided by the directives of the National Leader, the personnel of the diplomatic service are diligently fulfilling their critical responsibilities to advance the nation's foreign policy objectives. The successful execution of Turkmenistan's foreign policy rests heavily on the professional commitment and strategic tasks assigned to the diplomatic corps.

The Ministry of Foreign Affairs of Turkmenistan serves as the central executive body responsible for drafting and implementing foreign policy through diplomatic channels. It ensures high-level engagement within the country's relations with foreign states and international organizations. Historically, the People's Commissariat for Foreign Affairs of the Turkmenistan SSR was established on March 22, 1944, and was later renamed the Ministry of Foreign Affairs (MFA) on April 10, 1946. Since gaining Independence in 1991 and achieving the status of Permanent Neutrality in 1995, the legal and material-technical foundations of the nation's foreign policy institutions have been significantly strengthened.

The fundamental principles of Turkmenistan's foreign policy are based on resolving global and regional issues through peaceful, political, and diplomatic means. This approach is dedicated to ensuring prosperity, maintaining effective bilateral and multilateral relations, and fostering cultural rapprochement between nations. These peace-loving and constructive principles are clearly articulated in the "Concept of the Foreign Policy Course of Neutral Turkmenistan for 2022-2028".

The legal framework of the Turkmen diplomatic service is anchored in the Constitution of Turkmenistan and a comprehensive set of laws, including the laws "On Diplomatic Service" (2013), "On the status of diplomatic missions of Turkmenistan in foreign countries" (2011), "On Diplomatic Ranks" (2013), and "On Consular Service"

(2020), among others. Furthermore, it is guided by Presidential decrees, resolutions of the Halk Maslahaty and the Cabinet of Ministers, and the norms of international law. In this context, training highly qualified specialists in international relations, law, economics, and journalism is a priority. The Institute of International Relations of the Ministry of Foreign Affairs of Turkmenistan, established on March 20, 2008, by Presidential Decree, bears the responsibility of preparing these professionals. Since its inauguration, the Institute has developed a robust national methodology for educating the next generation of diplomats.

As a tradition, the Day of Diplomatic Workers of Turkmenistan is celebrated annually on February 18. Established by a Presidential Decree in 2009, this professional holiday includes the noble tradition of awarding the distinction of "Master Diplomat of Turkmenistan" to those who have demonstrated exceptional service.

Since the early days of its independence, Turkmenistan has declared its commitment to the principles of Neutrality, prioritizing close relations with neighboring states and expanding its presence in international organizations. Currently, Turkmenistan maintains diplomatic relations with 159 countries and actively cooperates with 54 prestigious international and regional organizations. Turkmenistan operates 41 missions abroad, including 30 embassies, 2 permanent missions to international organizations, and 9 consulates. Simultaneously, there are 45 foreign representations in Turkmenistan, comprising 32 embassies, 9 international organization offices, and 4 consular offices. These figures serve as clear evidence of the nation's active and positive Neutrality policy. The legal status of Turkmenistan's Permanent Neutrality is internationally recognized by UN General Assembly resolutions 50/80A (1995) and 69/285 (2015). Most recently, on March 21, 2025, during the 79<sup>th</sup> session of the UN General Assembly, a resolution titled "Permanent Neutrality of Turkmenistan" was again adopted unanimously. Additionally, the UN re-

solution 71/275 of 2017 established the International Day of Neutrality, further cementing Turkmenistan's role.

The Turkmen diplomatic service is not merely a state function but a school of humanitarianism that radiates the nation's peaceful values to the world. The "Open Doors" policy of the National Leader and the Honorable President opens new historical paths for Turkmen diplomats. Every Turkmen diplomat, feeling this historical responsibility, works tirelessly to enhance the international prestige of our Independent and Neutral Motherland, building bridges of friendship and contributing to global development. Looking forward, Turkmen diplomacy will remain faithful to its core philosophy of "Dialogue – A Guarantee of Peace", continuing to serve as a model of mutual trust and global cooperation in the Revival of the New Epoch of the Powerful State.

## ДИПЛОМАТИЯ — ИСКУССТВО СОЗИДАНИЯ

Говорят, что высшее достижение дипломатии — это гармония, которую общество воспринимает как должное: сохраненный диалог, процветающая стабильность, незыблемый мир. 18 февраля, в День дипломатических работников Туркменистана, мы чествуем тех, кто посвятил себя созиданию этой невидимой, но прочной основы государственности. Как будущие специалисты, мы понимаем: самая большая ценность сегодня — это не громкие сиюминутные заголовки, а та уверенная стабильность, которая рождается из ежедневного труда профессионалов, верных своему долгу и своей Родине.

В стенах Института международных отношений МИД Туркменистана мы постигаем не только теорию международных связей, но и саму культуру высокого служения Отечеству. Дипломатия в нашем понимании — это прежде всего гуманизм и ответственность. Каждый международный проект, каждая инициатива — это результат веры в созидательную силу сотрудничества. Мы учимся беречь то благородное наследие, которое передается нам через мудрость нашей истории, понимая, что в основе любой высокой политики лежит искреннее стремление к благополучию своего народа и уважение к мировому сообществу.

Постоянный Нейтралитет нашего государства — это уникальный инструмент глобального созидания. Это активная и созидательная позиция, позволяющая Туркменистану выступать надежным мостом и признанным миротворческим центром. Для нас, молодых международных работников, этот статус является высшим примером того, как важно чувствовать ритм времени и направлять его энергию на общее благо. Нейтралитет — это живая философия, в которой каждый шаг выверен, а каждое слово направлено на укрепление дружбы и взаимопонимания между народами.

Осознание столь высокой миссии приходит к нам благодаря мудрости и терпению наших наставников. В этот праздничный день мы выражаем искреннюю признательность всем профессорам и преподавателям нашего Института. Вы не просто передаете нам академические знания — вы вкладываете в нас понимание самой сути профессии, обучая искусству такта, стратегического мышления и терпения. Ваша вера в наше поколение и та щедрость, с которой вы делитесь своим бесценным опытом, становятся для нас надежным нравственным ориентиром. Мы осознаем, что каждый наш будущий успех — это плод тех семян знаний и ценностей, которые вы закладываете в нас сегодня.

Мир вступает в эпоху великих технологических перемен, но фундамент дипломатии остается неизменным. Какие бы новые горизонты ни открывал прогресс, его истинным мерилом всегда будет благо человека и сохранение жизни. Именно этическая опора и верность принципам гуманизма позволяют нам уверенно смотреть в завтрашний день. Быть дипломатом — значит быть стражем мира, осознанно создавая будущее в каждом моменте настоящего.

## Защитникам Туркменистана на внешнеполитической стезе

Отечественная дипломатическая служба по праву гордится своими яркими свершениями, многовековыми традициями, мастерами искусства ведения международных дел, мыслящими масштабно, умело владеющими словом и пером. Сегодня сохраняя верность наработанному богатейшему опыту и славным традициям, дипломатическая служба Туркменистана остаётся в авангарде усилий по продвижению и защите интересов государства на международной арене.

Туркменские дипломаты продолжают следовать важной миссии — в условиях глобальных перемен они отстаивают интересы государства в мире. Отвечая запросам времени, Институт международных отношений Министерства иностранных дел Туркменистана — кузница отечественных дипломатических кадров, готовит талантливых и профессиональных работников внешнеполитической сферы, специалистов-международников.

Преподаватели, специалисты в области международных отношений, с первых лет обучения учат студентов ИМО разбираться в вопросах внешней политики, особенностях дипломатии зарубежных государств и взаимоотношений с Туркменистаном. Немаловажно и то, что студентам предоставляется возможность перенимать опыт у ветеранов дипломатической службы, чья верность долгу, компетентность и преданность государству служат ориентиром для молодого поколения международных работников.

Говоря о значимости работы всей системы МИД Туркменистана, надо отдать должное деятельности Департамента внешнеполитической информации и цифровой дипломатии МИД Туркменистана. Сотрудниками Департамента проводится достойная работа в области информационного сопровождения внешнеполитической деятельности государства, доведения позиций, принципов и приоритетов государства до широкой туркменской и мировой общественности.

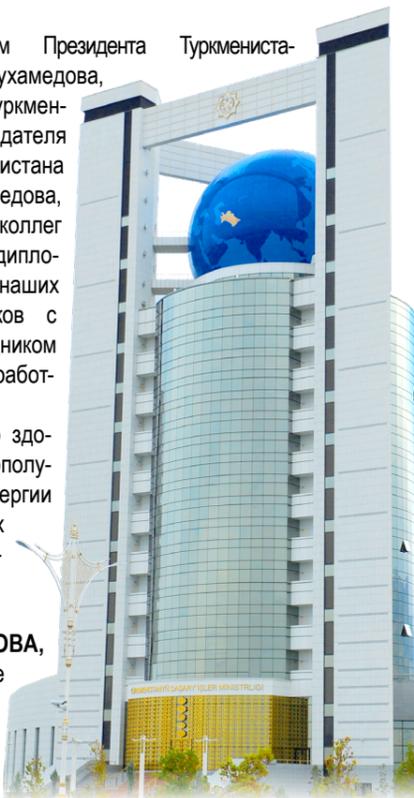

Перенимая опыт, мудрость и знания наших ветеранов, мы с честью и

достоинством продолжим отстаивать интересы нашей дорогой Родины, в том числе посредством информационно-аналитической и медийной работы.

Искренне поздравляем Президента Туркменистана Сердара Бердымухамедова, Национального Лидера туркменского народа, Председателя Халк Маслахаты Туркменистана Гурбангулы Бердымухамедова, всех ветеранов, дорогих коллег — членов отечественного дипломатического корпуса и наших студентов-международников с профессиональным праздником — Днём дипломатических работников Туркменистана!

Желаем всем доброго здоровья, семейного благополучия, неисчерпаемой энергии и новых вдохновляющих успехов на дипломатическом поприще!
